TYRANIDS

RULES UPDATES

This section presents updates and clarifications to your faction's rules, designed to improve the gaming experience for all players. Changes applied after the first iteration of this Faction Pack will be **highlighted in red**.

UPDATES

ARMY RULES

Shadow in the Warp

Change to:

'If your Army Faction is **TYRANIDS**, once per battle, in either player's Command phase, if one or more units from your army with this ability are on the battlefield, you can unleash the Shadow in the Warp. When you do, each enemy unit on the battlefield must take a Battle-shock test. Each time an enemy unit takes such a Battle-shock test, if it is within 6" of one or more **SYNAPSE** units from your army, subtract 1 from that test.'

Synapse

Change to:

'If your Army Faction is **TYRANIDS**, while a **TYRANIDS** unit from your army is within 6" of one or more friendly **SYNAPSE** models, that **TYRANIDS** unit is said to be within Synapse Range of that model and of your army. While a **TYRANIDS** unit from your army is within Synapse Range of your army:

- Each time that unit takes a Battle-shock test, take that test on 3D6 instead of 2D6.
- Each time a model in that unit makes a melee attack, add 1 to the Strength characteristic of that attack.'

ASSIMILATION SWARM DETACHMENT

Feed the Swarm Detachment Rule

Change to:

'In your Command phase, each **HARVESTER** unit from your army can Regenerate one friendly **TYRANIDS** unit that is within 6" of it. A unit can only be regenerated once per phase. Each time a unit regenerates, do one of the following:

- One model in that unit regains up to D3+1 lost wounds.
- One destroyed **INFANTRY** model (excluding **CHARACTERS**) is returned to that unit with its full wounds remaining. If that unit is an **ENDLESS MULTITUDE** unit, up to 3 destroyed models are returned instead.'

Instinctive Defence Enhancement

Change to:

TYRANIDS model only. While the bearer is within 6" of one or more friendly **HARVESTER** units, when you target this unit with the **Heroic Intervention stratagem**, that use is -1 CP. In addition, while the bearer is within 6" of one or more friendly **HARVESTER** units, models in the bearer's unit have the Fights First ability.

CRUSHER STAMPEDE DETACHMENT

Enraged Behemoths Detachment Rule

Change to:

'Each time a **TYRANIDS MONSTER** model from your army makes an attack, add 1 to the Hit roll if that model's unit is below its Starting Strength, and add 1 to the Wound roll as well if that model's unit is Below Half-strength. In addition, while a **TYRANIDS MONSTER** unit from your army (excluding Battle-shocked units) is at its Starting Strength, add 2 to the Objective Control characteristic of models in that unit.

Untrammelled Ferocity Stratagem, Effect Section

Change to:

'Until the end of the phase, each time a model in your unit makes a Normal, Advance or Fall Back move, it can move through models (excluding **TITANIC** models) and sections of terrain features that are 4" or less in height. When doing so:

- It can move within Engagement Range of enemy models, but cannot end that move within Engagement Range of them.
- It can also move through sections of terrain features that are more than 4" in height, but if it does, after its unit has moved, roll one D6: on a 1, your unit is Battle-shocked.'

SYNAPTIC NEXUS DETACHMENT

Reinforced Hive Node Stratagem, Effect Section

Change to:

'Until the attacking unit has finished making its attacks, each time an attack targets your unit, worsen the Armour Penetration characteristic of that attack by 1.'

UNENDING SWARM DETACHMENT

Insurmountable Odds Detachment Rule

Change to:

'In your opponent's Shooting phase, when an enemy unit has shot, if a model from a friendly **ENDLESS MULTITUDE** unit was **destroyed** as a result of those attacks, that friendly unit can make a **surge move** of up to D6".'

Synaptic Goadng Stratagem, When and Effect Sections

Change to:

'WHEN: Any phase, just before an **ENDLESS MULTITUDE** unit from your army that is within Synapse Range of your army makes a **surge move**. EFFECT: When making that **surge move**, you can re-roll the D6 to determine how far your unit moves, and your unit can end that move as close as possible to the closest objective marker (instead of as close as possible to the closest enemy unit). All other rules for making **surge moves** still apply.'

VANGUARD ONLSAUGHT DETACHMENT

Chameleonic Enhancement

Change to:

'**VANGUARD INVADER** model only. This unit has **Stealth**.'

Neuronode Enhancement

Change to:

'**TYRANIDS** model only. After both players have deployed their armies, you can select up to three **VANGUARD INVADER** units from your army and redeploy all of those units. When doing so, any of those units can be placed into Strategic Reserves, regardless of how many units are already in Strategic Reserves.'

- Select one **visible** enemy unit (excluding **Lone Operative** units) within 24" of this unit and roll six D6 for that unit: for each 3+, that unit suffers 1 **mortal wound**.
- Add a new **SPORE MINES** unit containing D3 models to your army and set it up anywhere on the battlefield that is within 6" of this model and more than 8" horizontally away from all enemy units. You cannot select this option for more than one model per turn.'

Hive Tyrant, Winged Hive Tyrant – Will of the Hive Mind Ability

Change to:

'Once per battle round, one model from your army with this ability can use it when a friendly **TYRANIDS** unit within 12" of that model is targeted with a Stratagem. If it does, reduce the CP cost of that use of that Stratagem by 1CP.'

FAQS

Q: Do units that are repositioned by rules that do not specify that the unit being repositioned is first placed into Reserves (e.g. the Grey Knights Teleport Assault rule) need to take a Battle-shock test on a roll of 2+ if a **TYRANIDS CHARACTER** with the Hunting Grounds Enhancement is on the battlefield?

A: Yes. Rules that are triggered by or apply to Reserves units are also triggered by and apply to a repositioned unit when it is set back up.

Q: Can I use the Rapid Regeneration Stratagem when an ability like Doombolt would inflict mortal wounds on a **TYRANIDS** unit from my army?

A: No.

Q: When resolving a Mawloc's Terror From the Deep ability, which units need to take a Battle-shock test: every unit within 12" of the Mawloc, or only those units for which a 5+ was rolled when resolving that ability?

A: Only those units for which a 5+ was rolled.

Q: If my opponent uses a rule to place a unit into Strategic Reserves during the first battle round, and that rule states that the unit must arrive on the battlefield in the next battle round, what happens if a model from my army uses the Psychostatic Disruption Enhancement in the second battle round when that enemy Strategic Reserves unit is due to arrive?

A: The 'cannot arrive' rule takes precedence over the rule stating that the unit 'must arrive' from Strategic Reserves. Roll one D6: on a 4+, that enemy unit cannot arrive on the battlefield this turn.

Q: If I select a unit of Neurogaunts for a Neurotyrant's Neuroloids ability that is not led by a **SYNAPSE** unit, does that unit of Neurogaunts gain the **SYNAPSE** keyword?

A: No.

Q: When using the Reclaim Biomass Stratagem, can the Stratagem effect be used on the unit that was just destroyed?

A: No.

Q: Does an Attached unit containing a Hive Tyrant and Tyrant Guard receive the Stealth ability from a Venomthrope's Foul Spores ability?

A: No. The unit has the **MONSTER** keyword and the ability excludes **MONSTERS**.

Q: Are Spore Mines units that are added to an army during a battle restricted by abilities that prevent Reserves from being set up within a certain range (e.g. Space Marines Infiltrators' Omniscrambers)?

A: No.

Q: Does a unit affected by the Psychostatic Disruption Enhancement have to arrive from Reserves in the next Movement phase?

A: No.

Q: Does the Synaptic Goadng Stratagem allow a unit to leave Engagement Range and move towards the closest objective marker?

A: Yes.

Q: Can units targeted by the Shadow in the Warp army rule use the Insane Bravery Stratagem?

A: No. Insane Bravery can only be used in your Command phase.

Q: While using the Subterranean Assault Detachment, does a Mawloc's Terror from the Deep ability trigger when arriving via a Tunnel Marker?

A: No.
